THE STATE OF NEW HAMPSHIRE

TOWN WARRANT

Cheshire, ss:

To the inhabitants of the Town of Walpole qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said town on Tuesday, the 8th day of March next, 1960 at nine o'clock in the forenoon, to act on the following subjects:

Article 1. To choose a Town Clerk, one Selectman, for three years, Auditors, Town Treasurer, Road Agent, Collector of Taxes, Trustees of Public Funds, Surveyors of Wood and Lumber, Fence Viewers and all other necessary officers.

Article 2. To raise money for the support of the town poor, for town library, for cemeteries, to build and repair highways and bridges, and for such other current expenses as may accrue.

Article 3. To see if the town will vote to authorize its Selectmen to raise money on notes of the town for current expenses in anticipation of taxes.

Article 4. To see if the town will vote to allow a discount on taxes as has been the custom in previous years.

Article 5. To see if the town will vote to accept such funds or bequests as have been left to it during the past year.

Article 6. To see if the Town will authorize its Selectmen to administer and dispose of and deed any real estate acquired by the Town by Tax Collectors' deeds after being advertised.

Article 7. To see if the town will vote to raise and appropriate \$5,000.00 for the purchase of a new truck and snowplow, balance to be taken from surplus.

Article 8. To see if the Town will vote to raise and appropriate the sum of \$500.00 (\$250.00 for North Walpole and \$250.00 for Walpole) to support the recreation programs in each end of the town. By petition.

Article 9. To see if the Town will raise and appropriate the sum of \$319.00 as its fair share of the operating cost of the Elliot Community Hospital.

Article 10. To see if the town will vote to raise and appropriate the sum of \$491.00 (1/100th of 1% of the valuation of the town) to the Monadnock Region Association of Southwestern New Hampshire for issuance and distribution of printed matter, newspaper and magazine advertising and by other means calling attention to the resources and natural advantages of the town, in cooperation with the other thirty-seven towns of the Monadnock Region.

Article 11. To transact any other business that may legally come before said meeting.

Polls to remain open until 6 p.m. or later if so voted.

Given under our hands this 15th day of February, 1960.

LOUIS S. BALLAM,
LAWRENCE W. GRAVES,
HAROLD T. KILLEEN,
Selectmen of Walpole.

A true copy attest:

LOUIS S. BALLAM,
LAWRENCE W. GRAVES,
HAROLD T. KILLEEN,
Selectmen of Walpole.

REPORT OF TOWN LIBRARY TRUSTEES

Bridge Memorial Library

Total circulation:

Adult	5,685
Junior	3,517
Magazines	350

North Walpole Branch

Total circulation:

Adult and Junior	4,800
------------------	-------

New Books Acquired:

Bridge Memorial	185
North Walpole	180

There were gifts of 21 books to Bridge Memorial Library and 72 to the North Walpole Branch. The addition of a set of Encyclopedia Britannica—24 volumes, has greatly increased the efficiency of the reference department. The librarian and trustees have worked in cooperation with the English department of the local schools by having on hand books required by the school's reading lists.

We have borrowed 150 books from the Bookmobile and about 200 from the State Library.

The librarian and the trustees have met with the committees of the four other libraries, Charlestown, Langdon, Acworth and Alstead, in the Sheiling Trust Fund group every other month through-out the past year. In March our regular meetings will be discontinued. Many beautiful books on history, art, crafts, biography and science have been purchased through this Fund to be shared equally by all the group.

Mrs. Hogan, Librarian of North Walpole, reports a greatly increased circulation especially in junior books. In all about 1,200 junior books were loaned since September.

We acknowledge with thanks, gifts of a number of books to both Libraries.

MARY H. VAN DEMARK,,
Chairman of Trustees.

THE STATE OF NEW HAMPSHIRE

SCHOOL WARRANT

To the inhabitants of the school district of the Town of Walpole qualified to vote in district affairs:

You are hereby notified to meet in North Walpole Elementary School All-Purpose Room in said district on the 8th day of March, 1960, at 7:30 in the evening to act upon the following subjects:

1. To choose a moderator for the ensuing year.

2. To choose a clerk for the ensuing year.
3. To choose two members of the school board for the ensuing three years.
4. To choose a treasurer for the ensuing year.
5. To hear the reports of agents, auditors, committees or officers chosen, and pass any vote relating thereto.
6. To choose agents, auditors and committees in relation to any subject embraced in this warrant.
7. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the salaries of school district officials, and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.
8. To see if the district will vote to authorize the school board to make application for and to accept, on behalf of the district, any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government or from the State of New Hampshire.
9. To see if the district will authorize the school board to enter into a contract with the school district of Rockingham, Vermont, for payment of high school tuition.
10. To see if the district will vote to raise and appropriate the sum of \$3,063.00 for the purpose of paying the district's share of the salary and expense of a Helping Teacher to be employed by Supervisory Union No. 60.
11. To see if the School District of the Town of Walpole shall adopt the method of election of School Board members by ballot, after filing, as prescribed by the laws covering such method. (the "Australian" ballot system, so called)
12. To transact any other business that may legally come before this meeting.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Walpole:

I herewith submit my annual report as your superintendent of schools:

From among the school children of today will come the leaders of tomorrow. All of the accomplishments of the future will be limited only by the capabilities of our children who have become adults. The provision of the best educational opportunity will develop sound future citizens which is the basis of our national and international status.

During the decade recently completed Walpole has built three schools and its school population has increased from 487 to 735 which is approximately a 50% increase. The charts given below seem to indicate a leveling-off of elementary school population but a continued increase of high schools population.

The need for expansion of building facilities is the same as reported last year. As was indicated in my report

last year and discussed at the school district meeting we will have to plan for the construction of additional facilities by 1963 or 1964. This year an elementary room was divided in order to gain the room needed for high school classes.

Next year it is planned to use a regular teacher plus a teacher aid for the smallest of the grade I to III classes. This class will be in a full sized room and will eliminate the divided classroom as used this year.

The school census figures show a Kindergarten potential of 32 for the south end of the community. Present plans call for one Kindergarten session that will take all of the pupils who register on registration day. If late registrants bring the total to more than 30 the late registrants will be assigned to the North Walpole Kindergarten class.

Walpole High School is approved (1959-60) as a Comprehensive High School according to required minimum standards. The school's curriculum is such as to exceed minimum requirements, however, further improvement is needed to meet the standards of a comprehensive school that will meet the needs of all pupils.

The per capita cost of maintaining a good comprehensive high school is considerably higher if there is a small enrollment as compared to the per capita cost of a larger enrollment. The ideal size is a school of about 600 pupils.

One way of increasing enrollment would be to form a cooperative school district that would include several of the nearby school districts. Such a possibility has been studied this past year by the board members of six school districts. Each of the school boards is planning to determine if the citizens of their district are interested in the further study of the possibilities of a cooperative school district.

An educational survey done by a firm of educational consultants would give facts that could be used to deter-

mine the direction that should be taken by Walpole.

Approval of the state plan under Title III of the National Defense Education Act was made in November. Directions of procedure for school districts followed shortly and we are nearly ready to submit our local plan for the use of the federal funds available under this act. As soon as our plan is approved orders will be placed for the equipment to strengthen and improve the areas of mathematics, science, and modern languages.

It was decided at the December Supervisory Union meeting to request each school board to include an article in the school district warrant that would give the district's citizens an opportunity to consider the advisability of adding a Helping Teacher to the administrative staff of the Supervisory Union. This article is included in the warrant.

A Helping Teacher is an assistant to the Superintendent who usually spends the most of his or her time working to improve education at the elementary level. The guiding purpose of a Helping Teacher is the improvement of children's learning in school and the realization of this purpose is by helping the classroom teacher help the children. The classroom teacher is helped to develop her best potentialities. The Helping Teacher passes on to the classroom teacher the best of what is being done in other schools in the Supervisory Union and helps teachers keep abreast of the advances being made in curriculum and methods of teaching.

A helping teacher is an especially qualified teacher who has had a number of years of successful experience and usually has a master's degree in education covering administration, supervision, child growth and development, curriculum study, guidance, special education, tests and measurements.

The work of the superintendent and helping teacher is closely integrated. They work cooperatively to promote the best possible educational program without duplication of effort.

Mrs. Geraldine Howson replaced Mrs. Arlene Kathan as a second grade teacher. Mrs. Howson received her degree from Castleton Teachers College and formerly taught in Chester, Vermont. Mr. Wilbur F. Weston, Jr. replaced Mr. John O'Connell as Guidance Director. Mr. Weston received his B. E. degree from Castleton Teachers College and His Masters's Degree in Guidance from Boston University. He formerly taught in Springfield, Vt. Mr. Mario D. Falsani replaced Mr. Howard Richardson as high school mathematics teacher. Mr. Falsani received his B. E. degree from Keene Teachers College and did his practice teaching in Walpole. Mrs. Margaret Kingsbury was employed as an additional faculty member to teach a section of grade six. Mr. James P. Quinn replaced Mr. Paul Lamothe as seventh and eighth grade English and Social Science teacher in North Walpole. Mr. Quinn received his A. B. degree from St. Anselm's College and did his practice teaching in Wilton, N. H. Several changes have occurred since September of this year. Mrs. Christyne Galloway replaced Mrs. Lacea Wilson as seventh and eighth grade mathematics teacher. Mrs. Elizabeth Staples replaced Mrs. Carlene Enderson as a fifth grade teacher. Mrs. Staples is a former second grade teacher in Walpole. Mrs. Arena Damon replaced Mrs. Ellen Pearce as school nurse. Mrs. Damon has had experience as a school nurse in Bellows Falls, Vt.

Mrs. Ruth King changed from Kindergarten to first grade at North Walpole. Mrs. King filled the vacancy caused by Mrs. Richard's resignation in October. Mrs. Marion Andros who has been a substitute teacher in Walpole for several years replaces Mrs. King as Kindergarten teacher.

The Written Language Arts Syllabus has been completed and is in the hands of teachers as a guide for this part of the curriculum.

The Walpole Elementary teachers attended a meeting of supervisory union teachers on January 6th to study

utilization of test results. The meeting was conducted by educational consultants from the California Test Bureau.

Written school board policies are being developed by the school board. This is a slow process as most board meetings have a full agenda and each item is thoroughly studied before being added as a policy.

The principals' reports are in more detail as to their respective responsibilities. You will be particularly interested in their reports in regard to the implementation of the Joplin-Walpole Plan for teaching reading and arithmetic.

Enrollment, January 4, 1960:

Grade	Kind.	1	2	3	4	5	6	7	8	9	10	11	12—Tl.
North													
Walpole	24	26	20	18	14	21	20	19	10				—172
Walpole	48	44	40	42	46	42	47	68	55	40	30	32	29—563

Tuition Pupils:

From Westminster		1				— 1
From Kurn Hattin			1			— 1
To Bellows Falls			14	13	13	12—52

I would like to take this opportunity to thank the school board, teachers, parents, pupils and citizens for their cooperation.

ELLIOTT W. KEACH,
Superintendent of Schools.

**REPORT OF THE SCHOOL NURSE FOR
WALPOLE AND NORTH WALPOLE**

The following is my report for the year ending June 30, 1959.

382 pupils were examined by Dr. Tatem

The following defects were noted and reported:

- 12 pupils with wax plugs
- 2 pupils with enlarged glands
- 3 pupils with eye squints
- 118 pupils in need of dental care
- 2 pupils with reportable communicable disease
- 677 pupils had vision tests given by the school nurse
- 29 pupils received vision notices
- 398 pupils had hearing tests given by the school nurse
- 682 pupils were weighed and measured by the school nurse
- 97 pupils attended the polio clinics
- 78 pupils attended the pre-registration clinics
- 75 pupils were checked for smallpox vaccination, and necessary follow-up done
- 349 pupils participated in tests for Albumin and Sugar
- 414 pupils were instructed in Dental health

In studying the aims of the school health program one finds that health education is becoming another added aim to the list.

The aims of health education:

1. To instruct children and young people so that they may conserve and improve their own health.
2. To promote satisfactory understandings, attitudes and ways of behavior among parents and other adults so that they may maintain and improve the health of home and community.
3. To improve the individual and community life of the future: To work toward a better second generation and still better third generation.

Perhaps in this area we can integrate more health education into our daily living.

My sincere thanks to all who gave their time and effort to make this year a success.

Respectfully submitted,

MRS. ELLEN PEARCE.

PRINCIPAL'S REPORT

WALPOLE VILLAGE SCHOOLS

Mr. Elliott W. Keach
Superintendent of Schools
Walpole, New Hampshire

Dear Mr. Keach:

I herewith submit my annual report:

ORGANIZATION

Four changes were made in the school organization this year. Two sessions of kindergarten, the dividing of one elementary room to house grade one, the addition of a reading and arithmetic supervisor for the intermediate grades in conjunction with the Joplin-Walpole reading and arithmetic program, and the expansion of the high school facilities by the use of the former grade one room located near the gymnasium lobby.

CURRICULUM

Grades K-3, the primary grades, continue to develop the necessary basic skills and to assist the younger pupils in learning the aspects associated with social living. Reading, language arts, arithmetic, spelling, science, health, music and art are the areas receiving emphasis.

Grades 4-6, the intermediate grades, have been operating part of the day on the Joplin-Walpole reading and arithmetic program. The fundamental aspects of this program are additional class time available on a concentrated level, increased interest and success by the pupils, a more coordinated program, greater individual attention to the pupil, and finally we hope greater achievement results by the pupils.

Although the program is quite lengthy to explain, I feel that the townspeople, especially parents with children in these grades now or in the future should understand the basic organization. The pupils are grouped in levels of achievement for reading and arithmetic instruc-

tion based on the results of the annual California Achievement Tests. The size of each class is approximately twenty-five pupils and the achievement range of each class is approximately six months. In other words, the achievement of the individual pupils in the class varies about six months compared to about eighteen to twenty months range in the ordinary or heterogeneous class. A Joplin-Walpole class is also composed of pupils who are fourth, fifth, and sixth graders.

The intermediate grade homerooms are still grouped homogeneously for the other educational areas but for reading and arithmetic the pupils move to classrooms that coincide with their various achievements levels and not grades four, five, and six.

We are anxious to determine the measurable benefits of this program but at the time of this writing we have none available. However, we intend to test the intermediate grades the last of January and the test results will be kept on file. Some of the results observed by the staff have been an increased interest in reading and arithmetic, an apparent increased learning rate in both areas, the need for special emphasis in certain areas and the apparent adaptability of this type of program to other subjects.

In grades 7 and 8, the junior high, our curriculum has remained constant. English, mathematics, social studies, science, shop, home economics and physical education are the areas emphasized. There are two changes in these grade levels. Shop and home economics are offered three consecutive periods for each section instead of two double periods. This was done at the suggestion of the State Department of Education. However, indications are that further adjustments will be necessary next year.

The other change in the junior high area has been the expansion of the enrichment program to the seventh and eighth grades. They are presently studying French on an aural-oral basis and it is planned to include Spanish the second semester.

We are using an S R A Reading Laboratory in the Seventh grade this year. It is a tremendous aid to the English program and has acted as a stimulus to pupils having difficulty with reading. We are planning to use a similar program in grades nine and ten.

Grades 9-12, the high school, is operating on eight, forty-five minute periods per day. The alternation of subjects has been reduced to one, Psychology-Sociology and Economics. We have been able to expand our curriculum and eliminate the alternation due to the acquisition of the former grade one room. It is also pointed out that the high school utilization of the rooms is over ninety-five percent. This indicates the need for serious consideration of additional space to meet our future needs.

The high school staff has been busily concerned with the self-evaluation of the school based on the Evaluative Criteria of the New England Association of Colleges and Secondary Schools. As previously mentioned this study is very complete and time consuming. It has required at least two meetings per week by the various committees to meet our schedule. This evaluation will continue until the April recess and will culminate May 9, 10 and 11 when the visiting committee arrives to evaluate our evaluation.

The primary purpose of the evaluation is to determine how well the school is meeting the educational philosophy that has been established as its goal. The philosophy of the school is stated below:

The Walpole School System believes that each individual should be accepted into the educational program as he is, that he should be provided with a stimulating environment and opportunities for learning experiences, and that these should be designed to promote behavioristic changes which will effect continuously satisfactory adjustments to life.

In the practical application of this philosophy, within the limits of his capacity, each individual shall be provided the opportunities to:

1. Develop physical, mental, and emotional health.
2. Develop moral, ethical, and social values.
3. Develop an appreciation of and responsibility for his role in the family and in civic groups.
4. Develop skills for effective participation in the democratic processes.
5. Develop the ability to communicate ideas effectively.
6. Develop knowledge and understanding of his natural environment.
7. Develop economic competence as a consumer.
8. Develop saleable skills and vocational competence.
9. Develop appreciation of the arts.
10. Develop wise use of leisure time.
11. Develop critical, constructive, and creative judgment.
12. Develop zeal for continuous learning and self-improvement.

SUBJECT AREAS

Since considerable space has been consumed explaining the Joplin-Walpole Plan and the Evaluation, it seems best to omit this phase of my report this year.

LIBRARY

The library was expanded again this year through the cooperation of the P.T.A., The Old Settler Bookshop, Mr. and Mrs. A. O. Hoyt, Mr. and Mrs. John D. Stamms and Mrs. William Wilson. Seventy-five novels were purchased, another section of the science library books listed in the American Association for the **Advancement of Science** and the **National Science Foundation** and several reference books. Our library is growing continuously and in due time will become an excellent reference center. We wish to take this opportunity to express our thanks for the interest

and contributions given to this area. We sincerely hope that it will continue to be forthcoming because the library is such an important part of the present educational system.

The cooperation shown by the town librarian and library trustees is also appreciated very much. This close association between the school and town library increases the effectiveness of our supplementary programs and is very commendable.

GUIDANCE

The establishment of the full-time guidance department has added immeasurably to the Walpole School system. The present director has been carrying out many of the duties as listed in my last report. With the increased emphasis on the importance of testing programs more of his time will be devoted to test interpretation to the pupils and parents.

There is one phase of the guidance department which I feel needs pointing up to the townspeople and that is the availability of the guidance director to the residents of the community. He is always willing to render his services to anyone. The guidance of our school pupils is his primary concern, but the department does have a wealth of information that may be useful to adults too.

READING AND ARITHMETIC SUPERVISOR

The employment of a part-time supervisor in these two areas has been an excellent educational improvement. It has coordinated our intermediate grades considerable. Three to four years probably will be required to realize all the benefits from this step. When viewed in conjunction with the Joplin-Walpole Plan the results appear to be very worthwhile. To transition or period of adjustment which pupils experience in moving from the intermediate grades to the junior high should prove to be much easier now.

TITLE III AND V FUNDS

The appropriation of the funds which will allow us to expand our science, mathematics, foreign language, and guidance departments are being studied. The staff has

had several meetings relative to the wisest manner for spending these funds. At the present time there is considerable interest being expressed in the area of audio-visual aids for the elementary grades. While on the secondary level the interest appears to be in the purchase of additional laboratory equipment.

SCHOOL LUNCH

There were 62,384 students and 4,656 adults fed in 1958-59. The following summary figures are given to show the comparison between the years 1956 to 1959 as of June 11, 1959:

	Total Receipts	Total Expenditures	Total Reimb.
1956-57	\$20,930 82	\$20,641 33	\$3,259 76
1957-58	20,232 43	22,599 55	2,646 17
1958-59	22,617 09	22,244 41	2,746 41

MISCELLANEOUS

It is hoped that additional provisions will be made for increased secretarial assistance. The school has reached the size to employ a part-time secretary in the principal's and guidance director's offices.

IN SUMMARY

It is my opinion that the educational climate of the Walpole Village Schools has improved considerably. I do not want to sound disparaging in this remark but simply wish to draw attention to the many improvements that the school system has made this past year. It is one thing to continually evaluate the school program and it is another to take action for the improvement of the schools. It requires the cooperation of all people concerned and I am sure that this has been adequately expressed during the school year.

In closing I wish to thank the superintendent, school board, teachers, parents and the pupils for their cooperation.

Sincerely yours,

LAURIE L. HARRIS, JR.,

Principal.

**REPORT OF PRINCIPAL
NORTH WALPOLE SCHOOL**

Mr. Elliott W. Keach
Superintendent of Schools
Walpole, New Hampshire
Dear Sir:

I herewith submit my annual report as Principal of the North Walpole School.

SCHOLARSHIP

Because public education is so important to every aspect of American life parents, teachers and other concerned want definite answers about pupil progress in school. In order to obtain these answers an effective evaluation program must be used. Evaluation is the process used to determine the amount and quality of pupil growth, development, and achievement based upon clearly defined purposes.

Our evaluation program has been of much help to the teachers and myself in guiding and directing the pupils in the basic knowledge necessary for an understanding of the American way of life—today's pupils are tomorrow's citizens. The program consisted of an Intelligence Quotient Test, which was administered to grades one, three, five, and seven; the Iowa Reading Test which was given to grades four through eight; and the California Achievement Test which was used at all grade levels. The I.Q. Test is a highly useful device for purposes of educational and vocational guidance. Its major purpose is to measure the pupil's capacity to learn. The Reading Test helps to determine the level of reading a child has attained. The Achievement test supplies data for the efficient instruction of the individual student and the results serve as aids in school administration and to the individual pupil.

In order to ensure careful interpretation of the results of these devices of evaluation, several teachers' meetings were held in order to discuss the data collected. These discussions enabled the teachers (1) to better group the children according to their abilities; (2) to place the pupils at their proper reading level; (3) to determine the areas that needed reteaching; and (4) to give suggestions for curriculum improvement based upon the data secured.

The Science Program, judging from evaluations made of the program, is progressing very satisfactorily. The results of the evaluations showed an increase in interest both by the pupils and teachers in science, and a remarkable increase in the number of experiments performed and experiences presented.

A Science Fair, at which each grade demonstrated and displayed one unit studied during the school year, was held in the School Auditorium. The Fair attracted many parents, students, teachers, and school patrons and it was the consensus of opinion that all profited from the experience. It provided a splendid opportunity for many students to receive recognition for their skills and talents other than sports and dramatics. In some cases, it boosted the student's morale and in others it awakened a latent interest in science. The Fair also gave the public an opportunity to learn of the training our youth are getting in science in the school, and of the extensive role science plays in our everyday lives.

ORGANIZATION

The Reading Program in the curriculum was changed somewhat at the start of the school year. The period was lengthened to sixty minutes, five days a week, in grades three through six, with all reading periods coming at the same time of the day in each grade. This change enabled us to shift the pupils around so that all would be reading at their proper level without disturbing the rest of the schedule for each grade. Reading Charts, which

show the number of books read outside of school by each pupil for each of the marking periods, are kept and displayed in each grade. The children are required to make an oral or written report on each book read. In order to take care of the oral reports two conversation periods were placed in the curriculum. The teachers during these reports control the grammar, correct usage, and vocabulary of the pupil. I judge from the comments made by students and from the report of the librarian on the number of books being taken out, that this part of the program is proving highly successful.

Extra-curricula activities such as assemblies, put on each month by a different grade, school socials held periodically throughout the year, and our athletic program provide distinct opportunities for advancing the general aims of elementary education.

Grades seven and eight presented two one-act plays, "Drag Race" and "The Bracelet of Doom" in November. The scenery for these plays was constructed and painted by a group of boys from the two grades. I wish to congratulate the boys for a job well done. Credit for a successful evening of entertainment is due to the individuals participating and to Mr. Quinn who directed the plays.

An insight as to how our State Government functions was enjoyed by the graduation class of 1959. They made a trip to the State Capitol in Concord last spring. The group viewed the State Legislature, the State Prison, the Office of the State Police, and other places of interest. The students were the guests of the Honorable Louis Ballam and Robert Galloway, their Town Representatives. The class and I wish to extend our thanks to them for their generosity and hospitality.

The annual publication of "Hilltop News" produced by grades seven and eight, was so well received by the community that it proved to be our banner presentation thus far. Our thanks, for making this possible, go out to our advertisers, patrons, and purchasers of the magazine.

The present seventh and eighth grades are now working on their publication which will come out in the spring.

In closing I wish to thank the Superintendent, the School Board, Teachers, Parents, and Custodian for their help and cooperation which was given to the School, thus insuring a successful school year for all.

Respectfully submitted,

JOSEPH Z. DUBE,

Principal.

VITAL STATISTICS

BIRTHS

<i>Date</i>	<i>Place of Birth</i>	<i>Name</i>	<i>Name of Father</i>	<i>Maiden Name of Mother</i>
Jan. 12	Bellows Falls, Vt.	Joy A. Flanders	Arthur Flanders	Elaine M. Kennett

MARGARET M. BALLAM, Town Clerk.

PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple—

1. Before burning, secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles—use your ash tray.
5. Don't burn at home—Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires 10

Number of acres burned $2\frac{3}{4}$

Number of permits issued 105

CORNELIUS WOOD, District Fire Chief.

WALTER KILBURN, SR., Forest Fire Warden.
